IN FOCUS: JUNIOR RESIDENTIAL PROGRAMMES

SOCCER SCHOOLS

Develop your soccer skills with the world-famous Manchester United Soccer Schools Coaching programme and gain an insight into the techniques and training methods of Champions!

Our Junior Residential programmes in 2010 will include the Manchester United Soccer Schools programme. The Coaching Programme is delivered by MUSS trained, UEFA qualified coaches using the MUSS Development Model and is unique in providing an in-depth football training experience.

Juniors can also choose from a wide range of multi-sporty activities (including tennis, karate and watersports) or participate in a fun programme of activities; combined with high-quality language tuition programme. Programmes are located at two prestigious public schools; Rossall School and Stonyhurst College.

Originally founded in 1844, Rossall School is a premier independent school located on the picturesque coastland of North West England. Rossall School provides a

uniquely historical setting for your study programme. Rossall's School is set within 160 acres of private ground and includes unique features such as a 19th Century chapel and Library, and a Planetarium. All facilities are of an excellent standard as befitting a premier boarding school.

Stonyhurst College has a distinguished history and offers excellent facilities, a stunning environment, and a fascinating heritage. Founded in 1593 by Jesuits, Stonyhurst College is an historic building set in a beautiful rural estate. Inevitably over a 400 year period there have been many fine achievements and distinguished former pupils.
